

Replacement Glasses for MO Healthnet Participants

- ◆ Determine where the child obtained their glasses and whether the eye exam was recent (within the past year).
- ◆ Contact Optometry office where you would like your child to be examined and request that they contact the specific MO Healthnet plan and request an “**authorization for replacement glasses.**”
- ◆ If the last eye exam was a year or more old, the child will need a new exam.

If you do not remember what plan the child is in or what optometry office they went to, use the following information:

MO Healthnet:
1.888.275.5908

The above number will inform you of which plan covers the child. Have ready, the child's name, date of birth, and Social Security number (if possible).
