

Endowed Chair/Professorship Report

An annual impact summary – a conversational update letter to donors – is to be submitted no later than January 31, 2026.

Please share your progress over the last year (January 1 – December 31, 2025) in a plain Word document, answering the questions below. This letter will be shared with the donor (or their representatives) who provided funding for your chair/professorship, so we ask that you *summarize the following in a conversational letter using lay language*:

1. Please share a summary and highlights of your team's work over the past year and your role in those achievements.
2. How have you incorporated innovative ideas into clinical practice for children and/or accelerated leading-edge pediatric translational research?
3. How have you shared your passion by helping train and inspire the next generation of pediatric medical providers, including residents and fellows?

***Please include your electronic signature and title at the bottom of your note!**
